

APPLICATION SPECIFICATIONS

MGT 28

Full-absorption, solvent-free, antistain sealer for sandstone in general, sandblasted, bush-hammered, flammed marble, granite, natural stone, marble or concrete agglomerates. Protects the surfaces against dirt and grease. Penetrates into the porosity of the stone and does not leave residues on the surface.

Instructions:

apply **MGT 28** by brush, cloth or low-pressure spray-gun **MGT 28** penetrates into the stone and protects it from staining substances. Allow to dry before treading on the surface.

Yield:

1 litre for 6 - 8 sqm depending on the finish of the surface

Packaging:

carton with 15 1-l bottles = 15 litres
carton with 4 5-l cans = 20 litres
carton with 24 0,500-l bottles = 12 litres
Available also in Kits for the treatment of tables, kitchen tops and bathroom tops

Safety measures:

keep in the original sealed container at room temperature. Before using the product, read the toxicological data sheet and the label detailing all risks and the personal protective equipment to be used for a correct use. The data of this technical data sheet is based on reliable information. Despite of this, the manufacturer cannot know in advance the condition of the materials to be processed and the way of use of the product. Therefore, he disclaims any and all responsibility for damage arising from inadequacy of the product for special applications.

Tips:

before treating or cleaning surfaces, carry out a test on an invisible point to prevent possible damages, since our responsibility is limited to the warranty of the purchased product and therefore we disclaim any responsibility for damages resulting from negligence or wrong use.

Note:

After using the product keep the container sealed, so the product will last for about 30 month.
