

## Sealer for terraces

Strengthening sealer for outdoor floorings. Protects terraces of natural stone, klinker, porcelain stoneware, ceramic and terracotta from water seepage due to rain. Protects the joints and prevents from formation of efflorescence and mould. Not film forming.

Coverage: 1 litre for approx. 8 - 10 m<sup>2</sup> depending on the finish of the surface and on its absorption.

### Strong Points

- Water repellent and consolidating
- Not film forming
- Does not turn yellow
- Easy application
- Suitable for outdoor
- Does not change the colour of the surface
- Prevents formation of moss

### Application

#### SHAKE BEFORE USING

READY TO USE PRODUCT, DO NOT DILUTE.

Pour directly **MGT 19** on the clean and dry surface, taking care of cleaning especially the cracks and the joints, spread out with a brush so to let **MGT 19** penetrate into the joints and into the cracks. Perform this operation twice, waiting about 1 hour between the 2 applications, depending on the temperature. Allow to dry at least 12 hours.

In case of not much absorbing surfaces the not penetrated product can leave some residuals, which can be removed with simple turpentine using a cloth or sawdust.

**MGT 19** can be used for the maintenance of tiled terraces, since it prevents seepages and protects the joints from algae and moss.

### Warnings

Before using the product, read the toxicological data sheet (MSDS) and the label detailing all risks and the personal protective equipment to be used for a correct use. The data of this technical data sheet is based on reliable information. Despite of this, the manufacturer can't know in advance the condition of the materials to be processed and the way of use of the product. Therefore, he disclaims any and all responsibility for damage arising from inadequacy of the product for special applications.

Before treating or cleaning surfaces, carry out a test on an invisible point to prevent possible damages, since our responsibility is limited to the warranty of the purchased product and therefore we disclaim any responsibility for damages resulting from negligence or wrong use.

### Packaging and Storage

Keep the original, sealed container in covered, ventilated, dry environment and keep away from heat or low temperatures. After the use keep the package well closed, so the product has a shelf life of approx. 36 months. Box of 15 x 1 litre bottle – Box of 4 x 5 liter cans
